CLICK ANALYSIS

Hi [Name] (or, please default "Student")!

Get a jumpstart on the fall semester by taking your Natural Science distribution lab requirement course through UVM's Summer University. Tuition is reduced by 50%.

One example is Astronomy: A&P Lab 1: Measuring the Sky, taught by Dr. John Parry. In addition to being an accomplished Astrophysicist, Dr. Parry is an internationally award-winning expert in holography, whose work has been featured in exhibitions at museums around the world. This course will cover measurements of the properties of the planets, stars, and galaxies, using graphical analysis, computer simulations, and photography. Prerequisites: Concurrent enrollment or credit in ASTR 100.

We've got you covered with lots of options this summer, including:

- Astronomy
- Biology
- Physics
- SOCP
- Chemistry
- ...

For more information on which place in the (course(s) you want to take, if you need help determining which courses to register for, please contact your advisor for assistance.

Best Regards,
CAS Dean's Office
