

## Fascinating Natural Sciences Lab Classes!

Hi Student:

Get a jumpstart on the fall semester by taking your Natural Science distribution lab requirement course through UVM's Summer University. Tuition is reduced by 30%.

One example is Astronomy: Astr Lab I: Measuring the Sky, taught by Dr. John Perry. In addition to being an accomplished Astrophysicist, Dr. Perry is an internationally award-winning expert in holography, whose work has been featured in exhibitions at museums around the world. The course will cover measurements of the properties of the planets, stars, and galaxies, using graphical analysis, computer simulations, and photographs. Prerequisites: Concurrent enrollment or credit in ASTR 005.

We've got you covered with lots of options this summer, including:

- Astronomy
- Biology
- Physics
- BCOR
- Chemistry
- Geology

Register [HERE](#).

Please register soon to ensure your place in the course(s) you want to take. If you need help determining which courses to register for, please contact your advisor for assistance.

Best Regards,
