

SUMMER REGISTRATION IS NOW OPEN,
AND TUITION IS DISCOUNTED BY 30%

Engineering Students:

UVM CEMS is offering a number of summer courses designed to help you catch up or get ahead on your degree requirements. Most of the courses that make up the pre-engineering technical (PET) core are being offered this coming summer. (First-year students must complete all five of the PET courses with a grade of C- or higher.)

We are also excited to offer Statics, Dynamics, Mechanics of Solids, Thermodynamics, Fluid Mechanics, and Electrical Engineering Concepts this summer. (Civil/Environmental Engineering majors, please note that ME 014/Mechanics of Solids is an acceptable substitution for CE 100/Mechanics of Materials). If you have questions about how courses fit into your degree requirements, please consult your academic advisor or CEMS Student Services.

Summer registration is now open, and tuition is discounted by 30% compared to fall/spring rates. Classes fill quickly, so register soon to ensure a spot in the courses you want.
